1. Welcome to the winter edition of the Servitir newsletter. As you know, we like to keep you updated on all the developments at Servitir. Featuring high on the list recently has been our move into the German market, establishing a direct sales presence which we hope to develop over the coming months and years. The German market provides a perfect opportunity for Servitir to offer our low-cost yet professional service portfolio to a market traditionally associated with high-cost products. We wish our team in Germany every success in the coming future.

2. SERVITIR in Germany

We have been busy putting in place the final touches to our move into the German market by opening a sales office in Hessen occupying a central position in Germany. We hope that our new team quickly build on recent successes which have seen Servitir secure large contracts with well-established German transport companies.

Our main focus is to offer our tax reclaim service to the German market and establish ourselves as a leading player in the supply and delivery of transport services.

We wish our team the very best of luck in Germany and we look forward to building a successful venture in this new market.

3. TIPP Recovery

If you operate vehicles over 7.5 tons and purchase fuel in France or Belgium then you are eligible to recover TIPP, a fuel duty levied by both countries. We can get you started recovering this tax today by contacting your account manager in Servitir and request additional details.

In this issue...

4. Product Focus:

- **Secure-Parking**

4. Product Focus:

SECURE PARKING in Europe

We have developed a new secure parking card in collaboration with a leading industry partner to help encourage our customers to put their safety first when choosing parking locations throughout Europe.

Due to the increased number of thefts and robberies and more worryingly violence, our customers have been looking for safe parking solutions when travelling in the UK and abroad.

We hope to be able to offer the card before the end of 2009 and expect the network to grow internationally throughout 2010.
